

Agenda

8:45 - 9:00	Registration
9:00 - 10:15	Stop the Bleed Joan Brewer, RN, Kim Todd, BSN, & Tara Harrington, AEMT
10:15 - 10:30	Break
10:30 - 11:30	Management of Aggressive Behavior in the ER Setting James Martin, Ph.D.
11:30 - 12:30	Management of the Difficult Airway Ben King, NRP, FP-C, AS, BS
12:30 - 2:00	Rotate Lunch & Difficult Airway Skill Stations
2:00 - 3:00	Abdominal Radiology in the ER Louis Bailey, D.O.
3:00 - 4:00	Identifying Life-Threatening Trauma With a FAST Ultrasound Emily Morrison, D.O.
4:00 - 4:15	Break
4:15 - 5:15	Hands on FAST Ultrasound Skill Stations
5:15 - 5:30	Q & A & Course Evaluations
5:30	Adjourn

Target audience

Physicians, NP's, PA's, nurses and other interested healthcare providers.

Objectives

- Identify basic techniques of bleeding control
- Discuss ABC's – Primary principles of trauma care response
- Demonstrate proper tourniquet technique for life-threatening bleeding
- Recognize violence potential/aggressive behavior
- Develop better self-awareness for managing aggressive behavior
- Develop improved verbal and nonverbal communication skills for managing aggression
- Identify the pitfalls of the failed airway
- Demonstrate increased awareness of critical thinking under stress
- Review gross external and internal airway anatomy
- Identify common life-threatening findings on abdominal x-rays
- Identify common abnormalities on abdominal CT
- Identify common pitfalls of abdominal imaging
- Identify and display technique for FAST exam and when to utilize it
- Identify normal and abnormal FAST exam findings
- Discuss ED and trauma team next actions with positive FAST findings
- Successfully perform a trauma FAST exam

Accreditation Statement

Frances Mahon Deaconess Hospital is affiliated with the University of Washington School of Medicine.

The University of Washington School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The University of Washington School of Medicine designates this live activity for a maximum of 7.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

FMDH Rural Emergency Medicine Conference

Focus on emergency care.

*Presented in honor and memory of:
Dr. David Gregory, who practiced medicine in
Glasgow for 40 years.*

Presented by:
Frances Mahon Deaconess Hospital

Saturday, October 13, 2018

Faculty

Joan Brewer RN, BSN, Referral Relations Manager

Joan has been an RN for 35 years, with experience in Trauma ICU, Spinal Cord and Traumatic Brain Injury Patient Admissions, Legal Case Management OR nursing, and Management. She has been in her current role of Referral Relations Manager at Billings Clinic for 5 years, as a commitment to Rural Health Care support. Without supporting and sustaining rural health care, our population health will decrease. Traveling the region of Montana, Wyoming and North Dakota she is able to see patterns of need and be able to bring resources together to improve patient care. Joan loves supporting the public also, and Stop The Bleed is a program designed to be taught to non-healthcare individuals by healthcare and emergency medicine professionals. She saw the opportunity to train to teach this course as a way to give back.

Kim Todd, RN, BSN, Trauma Outreach Education Clinician

Kim has been in the nursing profession 40 years. Background includes nursing on floor, multiple ICUs including all age, pediatric and trauma and ED. Trauma became her passion when Montana began development of a trauma system. Kim was involved in system development and helped to implement a trauma program at Billings Clinic as the trauma program coordinator with trauma medical director Robert Hurd. She remained the trauma program coordinator for 10 years prior to becoming the Montana State trauma system manager. Consulting for trauma programs and trauma systems for other states began while in the state role and then became her fulltime work. Kim returned to Billings Clinic over 3 years ago to again work in the trauma program but now as the outreach education clinician.

Tara Harrington, AEMT, Lead Instructor, Proctor, BLS Instructor.

Tara has been an AEMT for 5 years and has also worked in the ER at FMDH for the past 15 years.

James Martin, Ph.D. is a licensed psychologist at FMDH who was in private practice for the last 15 years providing evaluations and therapy for both juvenile forensic and general populations. Prior to entering practice he received extensive training and experience working with adult criminal inpatients and individuals with severe persistent mental illness.

Ben King is the founder and CEO of Bozeman based Best Practice Medicine (BPM). As a leader in pre-hospital and critical care medicine for over a decade, he champions clinical excellence and best practice care as a clinician, educator and mentor.

Ben is a sought after speaker on the science and practice of resuscitative medicine. With clinical experience in fire, EMS, emergency departments and critical care Medevac medicine, Ben most enjoys connecting interdisciplinary teams of people to each other in those critical moments of medicine.

A critical care FP-C qualified Flight Paramedic, Ben provided high altitude and rural retrieval medicine in the Rocky Mountains. He holds multiple instructor ratings in trauma, cardiac, high fidelity simulation and pediatric sub-specialties.

Ben received his degree in Paramedicine in 2006 and went on to earn a second degree in Biology in 2011. He specializes in the implementation of large scale educational projects and is leading the premier clinical education team in the Northwestern United States.

Dr. Louis Bailey is a diagnostic radiologist and Chief of Radiology at FMDH. He received his undergraduate training at Southern Utah university where he earned his bachelor of science degree. He attended medical school at Kansas City University of Medicine and Biosciences and graduated Magna Cum Laude. He completed residency training at Oakwood Healthcare in Trenton, Michigan where he served as Chief Resident, and a Fellowship in MRI at Michigan State University.

Dr. Emily Morrison

Dr. Morrison works at the Billings Clinic ER, starting this past summer of 2018. After completing her undergraduate studies at University of Montana, a Masters from Montana State, DO from PNWU, and Emergency Residency training at University of Pittsburg Medical Center, Dr. Morrison was able to return to Montana. Dr. Morrison loves the outdoors when not working and believes in supporting rural medicine.
